

Force gauge device

45 degrees peeling test fixture / P45-50N

Most suitable for sealing strength of a cup container cover.

[Applications]

This can measure peak value of the beginning of opening cover.

Peeling strength of a film cover of plastic container. For food and medical care etc.

[Feature]

Peeling angle is 45 degree, and this angle is nearly practical condition of opening cover.

It supports various container sizes.

Urethane grip is suitable for this film such as 10-25 micron for the reason of preventing slipping.

Urethane grip reduces the risk of cutting a sample by grip itself.

[Specifications]

Model	P45-50N
Capacity	50N
Container maximum dimensions	Height 12-90mm Diameter 30-120mm Detachment distance is different by container size.
Weight	Grip 30g / Jig 1200g
Opening width	2mm
Recommended test stand and force gauge	MV/ DS2, ZP / Z2 Series

[Dimension]
