Specifications	TXR-4080P
X-ray Tube	MAX. 80kV,100W/210W
Inspection Width	400mm
Inspection Height	50mm
Best InspectionAbility	SUS BallΦ0.3mm、 SUS WireΦ0.2*2mm
Conveyor Speed	5-50m/min
Temperature Adjustment	IndustrialAir Conditioning
Protection Mode	Removable Protective Curtain
Rejecter	Four-channel / Single Channel Flap Rejecter

Note:

The technical parameter above namely is the result of sensitivity by inspecting only the test sample on the belt. The sensitivity would be affected according to the products being inspected .
